PROFESSIONAL EXPERIENCE

TESLA, Palo Alto, CA Feb 2025 - Present

Data Collection Specialist - Optimus

- Coordinated and executed complex robotic testing scenarios, acting as the key liaison between R&D engineering and operational teams to meet project deadlines.
- Managed daily testing schedules and resources, maximizing hardware utilization and data throughput to accelerate engineering milestones.
- Identified and escalated hardware and software risks in real-time, improving the engineering feedback loop and reducing project downtime.

YANCEY'S FANCY, Corfu, NY Jul 2022 - Jul 2024

Operations Lead

- Directed daily production floor operations, managing schedules and allocating resources to consistently meet output targets.
- Analyzed and optimized packaging line workflows, identifying and resolving bottlenecks to improve overall throughput.
- Implemented standard operating procedures (SOPs) and cross-training initiatives, enhancing team versatility and reducing operational downtime.

A&A RESTAURANT GROUP, San Francisco, CA May 2018 - Jun 2022

HR Coordinator

- Administered full-cycle recruitment, payroll processing, and compliance documentation across multiple locations in accordance with federal and state labor laws.
- Developed and enhanced onboarding programs and employee engagement initiatives, improving retention and workforce satisfaction across teams.

PROJECTS

TESLA TEE TIME, Palo Alto, CA 2025 - Present

Founder & Project Lead

- Developed an AI-powered agent tailored for Tesla employees, providing personalized golf course recommendations based on office locations, after-work schedules, team outings, and EV charging needs.
- Curated a comprehensive knowledge base with 14 Bay Area courses, Tesla office details, and attributes (e.g., twilight rates, difficulty levels, Supercharger proximity), enabling use cases like quick 9-hole rounds and corporate event planning.
- Impact: Enhances employee engagement; structured for easy expansion to other regions or activities.

NEPINBAY, CA 2024 - Present

Founder & Developer

- Designed and launched a community web platform to connect Nepali-owned businesses, professionals, and events in the Bay Area.
- Built features including business directory, expert profiles, and event listings using React, Firebase, and Google Maps API.
- Implemented submission forms, data pipelines, and interactive map-based search to enhance usability.
- Led branding, marketing, and community outreach strategy to drive user adoption.
