PROFESSIONAL EXPERIENCE

TESLA, Palo Alto, CA **Feb 2025 - Present**

Data Collection Specialist - Optimus

- Coordinated and executed 40+ complex robotic testing scenarios weekly, serving as primary liaison between R&D engineering and operations to consistently meet project deadlines.
- Managed daily testing schedules and allocated resources across 5+ hardware units, achieving 95%+ operational uptime and accelerating data collection milestones.
- Identified and escalated 50+ hardware/software risks in real-time, reducing project downtime by 20% and strengthening cross-team communication protocols.

YANCEY'S FANCY, Corfu, NY **Jul 2022 - Jul 2024**

Operations Lead

- Directed daily production floor operations for 25-person team, managing schedules and allocating resources to achieve 100% output targets across peak seasons.
- Engineered packaging line workflow optimizations, eliminating 3 critical bottlenecks and increasing throughput by 18% while reducing material waste by 12%.
- Designed and deployed 8+ standard operating procedures (SOPs) and comprehensive cross-training program, reducing operational downtime by 25% and improving team flexibility.

A&A RESTAURANT GROUP, San Francisco, CA **May 2018 - Jun 2022**

HR Coordinator

- Administered full-cycle recruitment, payroll processing, and compliance documentation across 7 locations, ensuring 100% regulatory compliance with federal and state labor laws.
- Architected and launched comprehensive onboarding program and engagement initiatives across 200+ employees, improving retention rates by 22% and boosting workforce satisfaction scores.

PROJECTS

TESLA TEE TIME, Palo Alto, CA **2025 - Present**

Founder & Project Lead

- Architected an AI-powered recommendation agent for Tesla employees, delivering personalized golf course matches based on office location, schedules, team outings, and EV charging infrastructure.
- Built comprehensive knowledge base covering 14+ Bay Area courses, 5 Tesla offices, and 50+ course attributes (twilight rates, difficulty, Supercharger proximity), enabling use cases from quick 9-hole rounds to corporate event planning.
- MVP production-ready; designed for seamless expansion to other regions and activity categories; positioned to enhance employee engagement across Tesla workforce.

NEPINBAY, CA **2024 - Present**

Founder & Developer

- Architected and launched community web platform connecting 50+ Nepali-owned businesses, 30+ professionals, and local events in the Bay Area.
- Built full-stack features including business directory, expert profiles, event listings, and interactive map-based search using React, Firebase, and Google Maps API.
- Engineered data pipelines and submission workflows enabling community members to self-populate platform; achieved 40+ initial business registrations in first 2 months.
- Spearheaded branding, marketing, and community outreach to drive adoption and engagement within Nepali Bay Area community.
